Destruction

Four long years this has been the deliberate work of millions of men.

Buildings, towns, cities, communities, almost entire nations have been ruined and eliminated. With the close of the war, this has ceased and DESTRUCTION is a forgotten word.

Construction

But now we face the RECONSTRUCTION of all that has been DESTROYED; more, we face the task of Construction DELAYED through War.

CONSTRUCTION to an extent hardly to be comprehended by the human mind is to be our work during the coming years.

Ada

Has always been in the FRONT RANK in every good work and will be found taking its proper place in the new conditions that confront us. After the Chamber of Commerce drive next week our city will be ready to do greater things—if you do your part. Be ready to assume your phase of the load when the solicitors approach you Monday morning.

ALLIES WILL HOLD BERLIN

REPORTED BY GERMAN NEWS-
PAPER THAT FORCE WILL BE
SENT TO POLICE CITY.

(By the Associated Press)
COPENHAGEN, Dec. 6.—Allied and American forces will temporarily occupy Berlin and Mannheim to exercise police supervision, according to the *Allgemeine Zeitung* of Berlin, which says an American wireless dispatch to this effect had been intercepted.

WILSON IN TOUCH WITH AFFAIRS

DIRECTS BUSINESS AT WASH-
INGTON BY MEANS OF
WIRELESS.

(By the Associated Press)
WASHINGTON, Dec. 6.—Messages directing disposition of official business have begun to reach the White House from President Wilson on board the steamship *George Washington* at sea. Secretary Tumulty, who went to New York to see the President off for the peace conference Wednesday, got back to his desk in time today to handle the first of the instructions.

FEW SOLDIERS WILL BE RETURNED SOON

WASHINGTON, Dec. 6.—Secretary Baker gave it as his personal opinion today that none of the veteran divisions of the American army will return home before peace formally is declared. He indicated that the tried fighting men would compose the bulk of the force to be kept in Europe for the present.

Heretofore the understanding has been that the Rainbow division and two or three other famous units would be brought home soon, leaving their places to be filled by some of the newcomers.

Many Oklahoma troops are included in the veteran divisions now in France and forming part of the American army of occupation. General Pershing has already designated the divisions which he will retain in France for guard duty and among them are the Thirty-sixth, Forty-second and Ninetieth divisions. The old First Oklahoma regiment, now the 142nd infantry, is with the Thirty-sixth, and the Tulsa ambulance corps is attached to the Rainbow division, the Forty-second. Other Oklahoma contingents are included in the Ninetieth.

Y. M. C. A. ENTERTAINMENT HALL IN PARIS

(By the Associated Press)
PARIS, Dec. 6.—The Palais de Glace in Paris, which the Y. M. C. A. has opened as an amusement place for American and allied soldiers, is hidden among the trees in the Champs Elysees and had long been one of the world-famous skating rinks. It was opened in October and is going to be a life saver to the lonely boy who has no money to spend in expensive music halls. The theatre in this Palace seats 1,300 and every afternoon and every night there is "something doing." And it is open to all.

The tired French Poilu, the British Tommy, the Polish Legionnaire, the Greek, anybody on the allied side can walk up to the counter and refresh his hungry body with hot soup and salad and sandwiches, alongside of the American boy. The shows are absolutely free to all men and women in the uniforms of the allied nations.

The weekly program is made up of two professional boxing matches a week; two vaudeville shows given by Broadway's best talent, Chicago's latest hits and Frisco's popular teams; one religious evening beginning with movies, and one night a week of informal talks and interesting lectures about France. The audience at these educational nights is phenomenal, proving that our soldiers want to learn about this wonderful country in which they fought.

The Palais de Glace is under the direction of Dr. Thomas W. Graham of Minneapolis, Minn., and Miss Elizabeth Gilman of Baltimore, Md., who runs the canteen with the assistance of four other American girls in the uniform of the Y. M. C. A.

LARGE SUMS LOOTED FROM BEL-
GIAN BANKS TO BE GIVEN
UP AT ONCE.

(By the Associated Press)
PARIS, Dec. 6.—Mortgaging of railroads, mines or other undertakings in which Germany is interested is forbidden by a decision announced by the mixed conference being held at Spa. Foreign stocks belonging to Germany as well as gold in the Reichsbank come under the provisions of this decision. It is announced that negotiable documents, objects of art and bills of banks of Belgium and France taken by the Germans during the war will be returned. Restoration of cash and bank notes will be made to Belgium during the present month. Germany will also remit to the allies 23,000,000 francs received from the Soviet government of Russia.

SEVERE EARTHQUAKE SHOCKS ARE FELT

(By the Associated Press)
WASHINGTON, Dec. 6.—An earthquake, of such intensity that it dislodged seismograph needles, was recorded this morning at Georgetown University observatory. Shocks began at 3:48 o'clock and continued for one hour. They were centered approximately 2,500 miles south of Washington.

GEN. MARGUIA LEAVES JUAREZ IN QUEST OF VILLAS

JUAREZ, Mex., Dec. 6.—General Francisco Murguia, with his command of 2,000 cavalry, left here hurriedly today for Chihuahua upon learning that Francisco Villa and his bandits had doubled back through Santa Clara canyon from the Casas Grandes district and were marching on Chihuahua City for the purpose of attacking the state capitol during General Murguia's absence. General Murguia had started to Casas Grandes in pursuit of Villa when he received this information from Chihuahua City. A battle near Chihuahua is expected soon.

It was officially announced here tonight that General Murguia will be relieved of his command within a week by General Jesus Augustin Castro and that General Murguia would leave for Mexico City as soon as he had completed his present campaign against Villa north of Chihuahua.

General Murguia will turn over his command to General Castro at Chihuahua City this week and the new commander will assume command of the expedition against Villa. It was also reported tonight that General Ignacio Enriquez, the deposed Governor of Chihuahua State would be reappointed, but this was not confirmed.

FIGHTING IN BERLIN STREETS

SERIOUS DISORDERS RESULT
FROM BOLSHIEVSKI ACTIV-
ITIES IN CITY.

(By the Associated Press)
LONDON, Dec. 6.—Serious disorders have occurred in Berlin and considerable firing took place in the principal streets, according to reports reaching the Dutch frontier, says an Exchange telegraph dispatch from Amsterdam. The Bolsheviki element is said to have caused the trouble.

DAMAGING EXPOSURES

INVESTIGATION BY SENATE COM-
MITTEE BAD FOR HEARST
AND HALE.

(By the Associated Press)
WASHINGTON, Dec. 6.—In telling his story of German propaganda in America, A. Bruce Bielski, chief of the investigation bureau of the department of justice, laid before the senate committee investigating brewery and German propaganda, cablegrams exchanged between former ambassador Count Von Bernstorff and the German foreign office. One of Bernstorff's messages urges that special favor be shown William Bayard Hale, about to go to Berlin, as a newspaper correspondent, because he was employed by the Hearst organs, which the message said, "always placed themselves out spokenly on our side."

Bielski told the committee that Hale was on the Hearst payroll for \$300 per week and received \$15,000 yearly from the publicity organization under Dr. Bernard Dernburg, German propaganda chief. Hale, according to Bielski, was paid by Germany to visit Rumania and, if possible, prevent that country from entering the war.

WORLD FAMOUS ARTISTS READY FOR CONCERT

Arthur Middleton and his accompanist, Mr. Alberti, arrived in Ada this afternoon on the Santa Fe. They were entertained at luncheon by a small party of Ada music lovers.

Mr. Middleton is feeling great and is looking forward with much pleasure to the entertainment this evening. He says he is delighted to be back in Ada again.

Mr. Alberti, who was also here last year, will render several solos on the piano. His reputation as a pianist is little less than that of Mr. Middleton as a baritone.

Shall We Build a Better Ada?

The Answer to this Question will be largely determined Next Week.

On December 9, 10, and 11, the Chamber of Commerce will put on a campaign for increasing its membership and raising \$6,000 for next year's operations. Work cannot be accomplished without expense. If we are to build a better Ada we must pay the price.

The influenza is still prevalent in Ada and other cities. Persons cannot be too careful. The danger has by no means passed.

It is our advice to Congress to get down and pass that revenue bill without delay. Why kill time when the military leaders and the president insist quick action is necessary?

That mythologically famed land where it was always spring had nothing on Oklahoma where the autumn days, the most lovable time of the year, stay with us. The greatest wisher of all time could wish for no better weather than we are having here.

BUILD GOOD ROADS.

If there is an individual in Pontotoc County who is now opposed to building good highways, hard surfaced roads, he most certainly must not be keeping up with the march of events. A year ago when cold weather came on, our railroads broke down. Industry had to be suspended throughout the eastern part of the country, schools and churches were closed, and the industrial life of that part of our great nation stopped. We had forsaken our waterways, neglected to build highways, and had come to depend entirely upon railroads. Consequently the increased business could not be handled. The results were little less than disastrous. Probably the average citizen will never know just how near an entire breakdown this nation came to.

Suppose the United States had been traversed with good highways. The motor cars could have taken care of the increased business without any trouble. As it was, the roads could not be traversed with any appreciable loads. Imagine, for a minute, that a foreign foe had been landing on our eastern seaboard. It would have been well nigh impossible to have successfully opposed a well armed and numerous foe.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute.

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. They are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. His efforts to banish it brought out these little olive-colored tablets.

These pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel, but to let Dr. Edwards' Olive Tablets take its place.

Most headaches, "dullness" and that heavy feeling come from congestion and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "heavy" and "dull." Note how they "clear" the system and how they "perk up" the spirits. 10c and 25c a box. All druggists.

France has magnificent highways. Soldiers went to the front in buses, automobiles, any way. They did not have to wait for trains. It is a matter of military preparedness we must build roads.

But peace as well as war demands activity. Rome was able to control her vast colonial possessions because she built roads and could reach those colonies. Britain is able to keep her colonies satisfied because her many ships visit those colonies often, helping make them rich. We need highways of the best kind to reach every one in the country. No longer are we afraid of taxation. Liberty Loan bonds, Red Cross campaigns, and other war work have taught us lessons in financing. What is a million dollars now? Counties which have refused to consider bond issues of a half million dollars have bought more than a million dollars worth of bonds which have not seriously affected the business of the county.

We are advised that counties and municipalities should make arrangements to build highways now in order that there may not be any lack of work for the men and boys released from the army and from war factories. The time to build roads is now, never in the future. Not only is procrastination the thief of time but it is the thief of good roads.

DAUGHTER ALWAYS TIRED

Mother Says Vinol Built Her Up and Completely Restored Her Health
Long Island City, N. Y.—"My daughter is a milliner and she got into a rundown condition, pale and had no appetite. After other medicines failed to help her, Vinol gave her a good appetite, built her up and completely restored her health."—Mrs. H. Ott.

The reason Vinol was so successful in this case is because it contains beef and cod liver peptones, iron and manganese peptones and glycerophosphates, the very elements needed to build up a weakened, rundown system, and create strength.—Gwin & Mays Co., Druggists, and Druggists Everywhere.

"Hearts of the World."

David W. Griffith's undisputed masterpiece as all the world has conceded, is not a war story or a propaganda picture—but a love story pure and simple. And never was "the sweetest story ever told" framed in such a setting. The grim, gaunt spectre-haunted, war-ridden fields of France are the scenes of its action and its charming love episodes were played to the music of English, French and German cannon. Noyon, the picturesque French town where the American boys are now fighting was chosen by Mr. Griffith as the locale for his story and all his players were taken there in order to get scenes that would fit with his sense of reality. Reality is the one fetish of the master producer and for it Dorothy and Lillian Gish and Robert Harron, as well as the producer, endured many dangers. They were under shell fire eleven different times, one for eight hours. They went through terrible hardships that the story of France might be visualized for the people of America, and that it might live long after the struggle is over.

Noyon then was just behind the French lines and easily within reach of German guns. Yet here it was that the love scenes were taken, every now and then interrupted by the bursting in the vicinity of a souvenir sent by the polite Germans. Miss Gish in describing her sensations during this perilous pretense of romance for the picture's sake recently expressed herself thus: "We would be in the quietest imaginable spot, rehearsing a love scene and just getting the thing right when a Big Bertha would take a hand. Once when we were in the midst of a scene we heard a shell explode nearby and Mr. Harron and I both ducked our heads at the same time and our foreheads bumped together in a most unromantic manner. I thought sure the shell had struck me." Though "Hearts of the World" abounds in war scenes such as never before were seen and there are thrills that tax the average spectator to remain seated, the story is of love. The war scenes are used merely as a back ground.

"Hearts of the World" will be the attraction at the Liberty Theatre for two days commencing Thursday, Dec. 19, and no patriotic American can afford to miss seeing it.

CITY BONDS FOR LOCAL INVESTORS

OKLAHOMA CITY, Dec. 5.—(Special)—That the small investor in a city should be given the first opportunity to invest in bonds issued by that city and that outside agencies should be excluded from participation for a period of six months after placing such bonds on the local market, is a measure whose approval will be asked of the Oklahoma State Council of Defense by the municipal league. This, when presented by N. R. Graham of the Exchange National Bank of Tulsa, met with the instant approval of the league, which has just held its convention in Oklahoma City. Mr. Graham pointed out that several millions of dollars annually had been brought in from money centers to finance municipal projects, under the delusion that local money could not be found for that purpose. Oklahoma during the last eighteen months has sent out \$130,000,000 for war purposes which he declared, answered the question. Investment at home, he urged, would give the citizen a keener interest in local government affairs.

ROAD GAS WAGON BIG MONEY SAVER

OKLAHOMA CITY, Okla., Dec. 5.—(Special)—Great fortunes will be saved to the farming communities of Oklahoma, it is estimated, with the fulfillment of plans for the highways. Transport committee which are re-

ceiving the hearty endorsement of the Oklahoma State Council of Defense. Herbert Hoover has stated officially that 50 per cent of the perishable food products raised in this country go to waste because of a lack of adequate marketing and transport facilities. The plans of the committee embrace not only the methods of transporting but of marketing these and other products.

Inter-allied conferences on this subject are being held under the auspices of the Highways Transport Committee of the Council of National Defense.

It is shown that the Rural Express makes available for use waste foods that are now produced but are not now marketed; that it relieves labor where the labor conditions are the most acute; that the service undoubtedly stimulates increased production.

One rural express operator was able with three men to make it possible for fifty farmers on one highway to give all of their time to their agricultural pursuits at a period when such attention was most vital. Farmers who formerly sent a team,

One farmer raised 1560 bushels of corn on fourteen acres of land which he had heretofore used as pasture for horses.

CALUMET BAKING POWDER SAVES THREE WAYS

A moderate priced Baking Powder of greatest merit. Honestly made. Honestly sold. Economical in every way. Every particle is full of actual leavening value. A full money's worth.

You save time when you use it. Calumet is all baking powder. It begins to raise bakings the instant they are put into the oven. You don't have to keep "peeping" to see if bakings are all right. You know they are. Calumet is sure—never fails. That's economy. And true economy—in cost—in use—in time.

One trial will prove it and show you in results why millions of shrewd, thrifty housewives prefer Calumet to all other brands.

The unfailing strength of Calumet guarantees perfect results. Not only saves flour—sugar—eggs, etc.—but saves Baking Powder. You use only a teaspoonful—you use two teaspoonfuls or more of most other brands.

Calumet contains only such ingredients as have been approved officially by the U. S. Food Authorities.

EXPLANATION BY NEWS MANAGEMENT

Some of the customers of The News do not seem to understand the handling of the advertising for the United War Work campaign, which closed a few days ago. The plan was for each merchant to underwrite an advertisement, either by himself or with others, and The News would collect the amount due from each merchant at the end of the month. The advertising came to The News unsolicited and was authorized by committees working under the man-

agement of the campaign. The plan was the same as that in other campaigns. We have never solicited an inch of advertising for patriotic purposes, and have given space for all war work at greatly reduced rates. Some of the merchants appear to think that we are asking them to pay for something they do not owe. Errors probably occurred, but we have done everything we could to give the best service, and I believe the public will agree that we have helped put over the campaigns in great shape. I believe I can truthfully say that we have lost money on all war advertising. Are we sorry? I should say not. We were glad to do it, and regret we could not do more. We also regret that some did not understand the situation.

In the Christmas Red Cross campaign, T. B. Blake, who will head the publicity work, says the money will be collected by the soliciting committees, in order that no misunderstanding can occur.

SYDNEY, Australia, Dec. 6.—(Correspondence of The Associated Press)—Pronouncement by Arthur J. Balfour, British Secretary of State for Foreign Affairs, that Germany's Colonies will not be returned to her after the war revives in Australia and New Zealand animated discussion of the future of all the islands in the Pacific south of the Equator.

Whatever conclusion is reached by the allies at the peace conference as to the disposition of German New Guinea and German Samoa, not to mention the Marshall, Caroline and Ladrones groups, it is generally admitted that an entire recasting of the various administrations of the British islands is needed to develop their great potential wealth, afford security for trade and ensure adequate defense.

It is believed that a federation of all the British archipelago under a central authority having its seat of government at the most convenient center will eventuate after the war.

Thus, in effect a new state would be created which might be called the British Pacific Federation and might be administered by a Governor-General or High Commissioner. Such a Governor-General or high commissioner would not be concerned with the local governmental affairs of any particular group but with the federation as a whole. He might be associated by a council composed of appointed officials, representatives elected by each island group, and trade commissioners representing Great Britain, Australia, New Zealand and Canada. Local legislatures, would, under such a scheme as this, have as large a measure of self-government as compatible with the proportion of whites to South Sea Islanders and Asiatics, incapable at present of self-government.

It is pointed out here, however, that if the British islands are federated, means of communication between them must be provided in order that their administration and general welfare may obtain. Existing steamer services radiate from Sydney in Australia and Auckland in New Zealand, but groups served by any one line have no connecting link with adjacent islands served by other lines, or with China and India, save by way of Sidney.

Attention is called to the new well known fact that just prior to the war Germany was engaged in linking up her Pacific island possessions with the East with a view to a monopoly of the copra trade; and it is argued from this that if there should be a comprehensive British steamship service with Singapore at one end and New Zealand at the other ensuring a continuous supply of Asiatic labor for the islands it would greatly contribute to the material benefit of the proposed federation.

Not only will German Guinea or Kaiser Wilhelm land, and German Samoa be disposed of at the peace table but the exceedingly valuable phosphate island, Nauru, the German Solomons, the Bismarck Archipelago, the Marshalls, Carolines and Ladrones.

MOTHER FALLS UNCONSCIOUS

"My mother, who is 69 years old, has been troubled with her liver for 35 years. Doctors said she had gall stones. Several times she fell unconscious because of these attacks. Eight months ago I noticed an advertisement of Mayr's Wonderful Remedy in the Toledo Blade and purchased a bottle, which did her a great amount of good. She continued the treatment and has felt entirely well since." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.—Gwin & Mays Co., Drugists and Druggists Everywhere.

The Home Like Church.
Rev. Frank Richardson, who is pastor of Munger Place church in Dallas, will preach Sunday morning at the ten forty-five service at our church.

The Junior Society meets at nine just forty-five minutes before Sunday School. Christmas plans are in the making and we are expecting a full house at Sunday School.

At six thirty in the evening the young people of the church will meet for a worshipful service in the Epworth League.

"Peace With Honor" will be the pastor's evening theme. We will join the organist, Prof. Morris, and the Director, Prof. Fentem, in asking for a full choir at both preaching services.—Wallace M. Crutchfield, Pastor.

Deep-seated coughs that resist ordinary remedies require both external and internal treatment. AMERICAN SOLDIER'S PREDICAMENT IN PARIS

PARIS, Dec. 6.—He was spluttering with the helpless indignation of the man who wants to tell folks what he thinks of them and can't pronounce the words, when he came into the Y. M. C. A. headquarters. Two gendarmes with ferocious mustaches and friendly eyes shepherd him into the room.

"L'Americaine," they announced, simply, and turned away with the air of those who have done their duty. They had learned that the Y. M. C. A. would always look after the American soldier in France.

"What's the matter," asked the Secretary.

"Matter? There ain't anything the matter with me," said the American soldier angrily. "You better ask them policemen what's the matter with them! Say, they couldn't hold down a job ten minutes in New York! They can't even talk—just make noises."

"What did you want to talk to them about?" inquired the Y. M. C. A. man.

"Oh, I just want to ask the way back to the station, that's all. I left my rifle and pack in the corner, and came up to see Paris. Now I got to go back to catch my train."

"Where do you live back home?" asked the Y. M. C. A. man.

"Brooklyn," said the American soldier.

"I'll just telephone and find out where you left your rifle and your pack," said the Y. M. C. A. man. A few minutes later he was ready with the desired information, and the directions for getting back to the station.

"Thanks," said the American boy. "I sure am much obliged. But, say, Paris is a funny place, ain't it? A little cleaner than New York, maybe, but, say, I'd rather be a wart on the nose of the Goddess of Liberty than the whole Eiffel Tower." He turned abruptly and went out.

BANDITS TERRORIZE PARTS OF CHINA

PEKING, Dec. 6.—From almost every province of China come reports of outrages committed by robbers and some of their recent exploits equal those of the terrible White Wolf who ravaged a huge stretch of territory before meeting a none too timely end.

Shaantung is the happy hunting ground of thousands of bandits because of geographical facilities which enable the rascals when pursued by troops to enter adjoining provinces whence they cannot be followed. This state of affairs has been made much worse by General Lung Chi-kwang, who, after his defeat in Kwang-tung by the southern armies, recruited from the Shaantung bandits fresh levies for his expedition. He secured wholesale a force of 5,000 men by promising to make their leader a brigadier general in the Republican army of China.

Dissatisfied to find no pay forthcoming, these "robber recruits" commenced looting and attacked the Tientsin-Peking Railway, the link between Peking and Shanghai. Here, however, they met the Shaantung troops, and several battles were fought before the bandits were dispersed. The train service was interrupted by the bandits tearing up a portion of the line. General Lung Chi-kwang denies all responsibility for the misguided activities of his recruits, but the government has prohibited the enlistment of further men before their approval has been given. Such is the state in China today.

THE LASSIE WHO WAS LOVED BY TWO GALLANT SOLDIERS

In her latest and greatest photoplay pretty Peggy Hyland presents one of the most touching love stories that have ever been penned or acted. "Bonnie Annie Laurie" is the title of this play, and it will be shown at the American Theater for one day, beginning tonight.

Although she is the publicly announced bride-to-be of a young and handsome fellow countryman, Bonnie Annie, a sweet lassie of Scotland, is compelled to yield her devotion to the impetuous wooing of a dashing American officer. How this tangle of three noble hearts is unraveled by the stern hand of war, forms the theme of this fine drama.

AMERICAN TO PRESENT PRETTY PEGGY HYLAND.

Beginning today the American Theater will feature for one day the William Fox star, Peggy Hyland, in a tale of love and patriotism called "Bonnie Annie Laurie." Mingled with realistic scenes of the battlefields of France and No Man's Land, is told a tender story of the romance of a noble hearted Scottish lassie who becomes the queen of two gallant soldiers of Scotland and America. The dramatic manner in which fate intervenes forms the stirring motive and unexpected conclusion of this clean, wholesome photoplay.

The New Engine

We have received our new Engine, ordered last January, and for several weeks will be tearing out the old and putting in the new. While doing this work we will have only one engine to depend on for service, so there will probably be some interruptions. We trust they will be few and of short duration and that our customers will bear with us patiently. For two or three Sundays, beginning with the 10th, the plant will be shut down from two to six hours while making changes in steam lines necessary to make connections for the new engine.

PROVIDING WORK FOR DISABLED SOLDIERS

(By the Associated Press)
CHICAGO, Dec. 6.—(Reconstruction)—"America's boys fought and bled. So America shall not desert them."

This, in effect, is the motto of the Division of Rehabilitation of the Federal Board of Vocational Education which has just opened district headquarters here with a staff of trained experts who will look after the welfare of disabled soldiers.

Every disabled soldier in a reconstruction hospital in America will be visited by a representative of the division, his case will be studied, he will be permitted to choose the business or profession he wishes to enter, and then will be sent to a training school, a university or a college. During the training or study period his expenses incident to the training will be paid and he will receive a stipulated sum for living expenses. When he is ready for business a position will be found for him.

"It is a tremendous task, but the work is progressing satisfactorily," said an officer in the Chicago headquarters. "District headquarters have been opened, or shortly will be opened, in Boston, New York, Philadelphia, Washington, Atlanta, New Orleans, Cincinnati, St. Louis, Minneapolis, Denver, San Francisco, Seattle and Dallas.

"In a few days the great organization will be in full swing and there shall be no need of despondency on the part of the disabled soldier. How many men could this office handle in three months? That is difficult to answer. In the few days we have been open six hundred cases have come to hand. Every case, mind you, must be given careful thought and study."

Charles W. Sylvester, director for this district, which embraces Illinois, Michigan and Wisconsin, said that arrangements now are being made with educational institutions for handling the men.

Virtually all of the cases so far reported to the Chicago office come from middle west training camps, and the unfortunates include consumptives, mental weaklings, men with chronic diseases made worse by camp life and others entitled to service under the regulations of the War Risk Insurance Bureau.

F. C. Arnold, District Case Officer, said that additional employees are needed to handle the great number of cases expected when men begin arriving from overseas. The vocational division needs men with a wide knowledge of the principles of industrial, commercial and agricultural enterprises in America. Successful applicants, who will receive from \$3,000 to \$4,000 a year, must have had three years experience as administrative officers in one of the three branches.
